Profesional Experience

Plexus Tech

Role · **Accessibility Consultant**

01 / 2025 - now

· I test interface functionality with screen reading technologies such a **VoiceOver** /**TalkBack**. I evaluate interface usability with assistive technologies designed for users with motor limitations, such as **Switch control systems** and **keyboard navigation**.

I **identify, record, and report** accessibility issues to facilitate improvements in digital product accessibility using Jira and confluence.

I give consulting to development teams regarding accessible design implementation and inclusive user experience principles.

I employ agile frameworks like SCRUM to ensure accessibility considerations are integrated throughout all development stages.

•

Accessibility First

Role · **Accessibility Advocate**

12 / 2023 - 12 / 2024

· I am in charge of the design and development of the app to communicate information related to accessibility in all its aspects.

The Manual and automated testing are part of my day-to-day to achieve compliance with WCAG 2.1 and the European standard EN-301549 in web and mobile applications.

I also create and produce training content for both designers and developers on how to think and design in a accessible and inclusive way

Technical environment:

Development: Angular CLI - HTML5 - CSS3 - SASS - GIT - ITCSS - BEM - BEMIT

Design : Adobe suite - Figma · Cloud tools : Vercel - Github

•

Neoris

Role · **Business Consultant**

11 / 2021 - 11 / 2023

· During my time at Neoris, I helped clients create new UX UI designs for their products and services through user research and interviews. I perform **Manual** and **automated** testing to achieve compliance with WCAG 2.1 and the European standard EN-301549 in web and mobile applications.

Profesional Experience

I Led the UX redesign for a national healthcare app used by 1M+ users, and some other clients like, Ministry of Justice, Sanoma, Editorial Santillana, and Movistar among others.

Technical environment:

Development: Angular CLI - HTML5 - CSS3 - SASS - GIT - ITCSS - BEM - BEMIT
Design : Invision Studio - Adobe suite - Apple Motion - Figma
Cloud tools : CONFLUENCE - JIRA - SVN - GITLAB - BITBUCKET
Layout Angular Bootstrap / Material Design / PrimeNG

NTT Data  Role · **UX / UI Developer** 03 / 2020 - 11 / 2021

· My job was to create new graphical interfaces (GUI) based on the client's requirements. The development in HTML and CSS of the new interfaces and the correction of accessibility errors following the WCAG 2.1 and 2.2 standards. Manual and automated testing to achieve compliance with WCAG 2.1 and the European standard EN-301549 in web and mobile applications.

The clients I worked with were the Orange, Inversis, Santander Bank, Santa Lucia Ensurances, Endesa and Mapfre

Technical environment:

Development: Angular CLI - HTML5 - CSS3 - SASS - GIT - NPM Cloud tools : CONFLUENCE - JIRA - SVN - GITLAB
Layout Angular ITCSS · SASS - BEM Methodology
Design : Invision Studio - Adobe Suite - Figma

SML Group Limited  Role · **IT Formatter** 09 / 2015 - 11 / 2018

· The work I did was based on the development of new variable data labels for retail sales. I had to create the new labels and prepare them for worldwide distribution increasing weekly production by up to 80%.

The clients were Inditex, Mango, Mayoral and Tempe among others.

Technical environment:

Quadient Inspire: | Scripting C++, Quadient Scripting for data manipulation
Apache Groovy: development, maintaining and debugging
Graphic Design: Images / logo vectorization, pantone colors, fonts creation
Prepress Production

•

Ágora Tecnologia universal

Online trainer

08 / 2024

Officially accredited as a teacher of vocational training for employment, both face-to-face and distance learning

•

Instituto Jaume Balmes

Applications Developer

09 / 2013 - 06 / 2016

Trained to develop, implement and maintain web applications, regardless of the model used and using specific technologies, ensuring access to data in a secure manner and meeting the accessibility, usability and quality criteria.

•

Escuela del Trabajo BCN

Graphic Arts Production

09 / 2010 - 06 / 2012

Graphic Arts is an artistic process of the creation and elaboration of a specific design, using a medium by which the image is transferred to a substrate, thus creating an artistic expression.

•

Centro Gráfico de Tecnología

Graphic Designer

03 / 1999 - 06 / 2002

The graphic or "visual communication" designer is closely related to communication as a theoretical science and graphic discipline.
